Mr. John Stifel, Methods Engineer
Marlin Rockwell Corporation
Plainville, Connecticut

SUBJECT: ESPEC #574

Dear Sir:

The writer regrets his negligence in failing to send a promised description of the above mentioned compound with respect to its wetting agent content.

ESPEC #574 consists of abrasive, soap, and a combination of carbonates. There is no wetting agent of any type in this compound.

We hope this information is sufficient for your purposes. If we can help in any other way, please contact us.

Very truly yours,

Mr. William A. Biebel, Vice President
WAB/nko

NOTE: THE ABOVE COMPOUND USED ON TRIAL BASIS FOR SEVERAL WEEKS HAS PRODUCED EXCELLENT RESULTS WITH "CARBOBRITE" MEDIA IN "TUMBLING CORNERS ON OUTERS IN THE GMT" TUMBLING UNIT. THIS MIGHT BE A POSSIBLE STD.
